Dear Ms. Lipman:

I feel terrible about the medicare cuts. You have no right to cut these services. I really need these services very badly. I can't afford to pay for everything - my medicines, my doctors, and my pacemaker check-ups. God forbid I have to go in the hospital because where would I get the money to pay for it.

I feel very badly if I wouldn't be able to come to the Daughters of Israel Day Center. I need it so much. I can't stay home all alone.

Please listen very much to what I am saying. I thank you for listening to me in this letter. Please try your very best to do what you can.

Sincerely,
- Charlotte Kandel
